MOBIGO 2+ F

By MobiIoT

4G FINGERPRINT TECHNOLOGY

THE SMARTEST WAY TO ASSOCIATE MOBILITY AND FINGERPRINT VERIFICATION

Using state of the art fingerprint technology from IDEMIA, working online or offline, with the possibility to use face recognition, NFC and document reading: the MobiGo 2+ F is a terminal that covers all KYC requirements.
Portability, robustness, extended battery capacity, this pure mobile device is able to capture and validate instantly the identity of your customers or workers.

Customer due diligence / KYC

The aim is to verify the identity of customers, without impacting the access of unbanked or underserved populations to mobile communications, mobile money & new electronic financial services.

Social and Financial inclusion

MobiGo 2+ F combines the latest mobile communication technologies & a state-of-the-art fingerprint sensor by IDEMIA, in the most compact Android mobile terminal. Thus, carriers & financial institutions complete full customer onboarding checks in less than one-minute, real-time services activation, and full compliance with KYC regulatory requirements.

Product Description

KEY FEATURES

- Fingerprint optical sensor
- Android app / Web app/ FOTA
- Online/Offline transactions
- Barcode/QR code/NFC reading

APP DEVELOPMENT ENVIRONMENT

- Android 12
- MobiloT advanced APIs, SDK
- Apps signature, Secure boot
- eFuse
- IDEMIA SDK

Technical Specifications

OS
- *Android 12 GMS; EDLA*
- *Custom API*

Display
- *4.95” FWVGA+*

Camera
- *Front 8MP-FF*
- *Back 8MP-AF*
- *White LED flash*

Battery
- *Removable*
- *3 500 mAh Li-Po / 3.8 v*

Memory
- *eMMC 32GB ROM*
- *DDR4x 3GB RAM*

Processor
- *MediaTek MT8766 Quad Core Cortex A53 @ 2.0GHz*

IP54

Wireless connectivity
- *WiFi 5*
- *Bluetooth 5*
- *NFC by NXP®*

Connectors
- *Dual SIM 3FF, SAM 2FF*
- *USB-C, OTG 2.0*

4.95” FW+ · 4G · 3500 mAh · 32 GB · 3 GB · 8MP 8MP · ANDROID 12 · 4X2.0GHZ · SIM CARD · NFC
