

Quality and Environmental characteristics of HINTO 2 feature phone :

- Indicative weight range :

- Metals :

- Cobalt in battery : 1.42g
- Tantalum in capacitors: 0.0001 mg
- Neodymium : 73 mg

- Precious metals :

- Gold: 116.4 mg
- Others: N/A

- Rare earth :

- Neodymium: 73 mg
- Others: N/A

- Indicative recyclability rate : 55%
- Percentage of recycled content : 76 % of packaging
- Maximum battery endurance in cycles : 500
- Ingress protection rating : IP54
- Hazardous substances (specify which) : 1,3-propanesultone in battery
- Composability : No
- Possibility of reusing packaging : No
- CO2e footprint : 13.8 kg
