

MobiGo 2+ Pro

By MobiloT

Introducing the MobiGo 2+ Pro, our dedicated 4G SoftPoS device, certified EMV L1 Contactless RR2, built for smoother transactions!

Designed to simplify merchant operations, it allows payment acceptance in a single, compact device. Equipped with powerful NFC by NXP®, the MobiGo 2+ Pro enables fast contactless payments.

Our high-quality hardware integrates payment solutions powered by trusted software partners, ensuring secure and seamless transactions, vetted by trusted experts in the field.

Our device is a cost-effective, high-performance solution for modern payment needs.

Contactless

Designed for contactless payments, powered by a powerful NFC by NXP® and certified EMV L1 Contactless RR2, its ergonomic placement ensures every transaction is effortless for both merchants and customers.

Compact

Not too small, not too big, and fully protected by a durable silicone case, the compact MobiGo 2+ Pro features a 5-inch LCD display with IPS technology, delivering high-quality visuals and comfortable use wherever business takes you.

Performance

Powered by a strong octa-core processor and a 3500 mAh battery, the MobiGo 2+ Pro delivers great performance for a full day of use with ease! Ensuring fast processing and with an optional Zero Touch function for effortless setup and management.
